Subject: RE: pre conference call questions

Hi Cathy

I was in meetings and teleconference all morning. I forwarded Don's invite to both Loren and Thomas, but I have not heard if they are planning to attend. Will let you know if I hear more.

5 Year Review - we are still discussing internally and I have not yet compiled all of the comments. Our goal is to get you a letter with the protectiveness determinations that transmits final comments by Sept 30.

We have a letter that will be coming from Angeles and Tina on the ST12 path forward hopefully today or tomorrow that details elements we would like to see in the workplans going forward.

Carolyn

Subject: pre conference call questions

Hi Carolyn-

I tried calling your cell but am having trouble getting through for some reason.

Will you have Five Year Review comments to share tomorrow?

Also, are you anticipating any EPA management participation tomorrow?

AmecFW is reviewing drafts of the two ST12 field work variances, one for containment and one for characterization. We are trying to get them out as soon as possible, but it probably won't be until next week. The BCT slides have information on the characterization locations and responses to the comments raised in the Aug. 24th meeting.

Thanks.

Cathy
